

## Academy of Performing Arts School Performance Report 2003–04

Principal: **Juanita Hempstead**  
 School type: **District**  
 Grade range: **9–12**  
 Enrollment: **729**  
 Address: **4747 Flora Avenue**  
 City: **Kansas City**  
 Phone: **816-418-2275**  
 Fax: **816-418-2300**

### PRINCIPAL'S COMMENTS

Paseo Academy is committed to accepting the challenge of meeting the needs of all our students. We realize that each student is talented and unique. Our school's goal is to help students achieve at a high level academically and in the arts.

With quality preparation, students will be prepared to accept challenges and compete successfully in our diverse society. Parents and visitors are welcome to visit the campus. To request information about school programs, please call Ms. Moore at 418-2275.

### KEEPING YOU INFORMED

This report summarizes how this school and its students are performing. As you read this, ask yourself: How did this school do compared with previous years and with other schools in the city and state? Why might this be happening, and what is the school doing to help all students in all subjects? Discuss questions like these with other parents and with the school's advisory committee, teachers and principal. Improving schools is everyone's responsibility. Having good information and honest conversations are important first steps.

### STUDENT PERFORMANCE

#### ★ Missouri Assessment Program Scores, Spring 2004

The state requires students in grades 10 and 11 to take the Missouri Assessment Program (MAP). The test measures how well students meet the state standards, which explain what students should know and be able to do in math, science, social studies and communication arts. Students' MAP scores fall into one of five categories: Advanced, Proficient, Nearing Proficient, Progressing or Step 1.

#### TOTALS

Percentage of students scoring at Advanced or Proficient

|                    | This School | District High Schools | State High Schools |
|--------------------|-------------|-----------------------|--------------------|
| <b>Grade 10</b>    |             |                       |                    |
| Math               | 2%          | 2%                    | 15%                |
| Science            | 1%          | 1%                    | 7%                 |
| <b>Grade 11</b>    |             |                       |                    |
| Communication Arts | 6%          | 6%                    | 22%                |
| Social Studies     | N/T         | N/T                   | 19%                |

MAP scores include all students. Additional MAP scores are on next page.

★ *The state considers these measures when deciding if the school district should be accredited.*

## Student Performance (continued)

**GRADE 10****Math**

Grade 10 students are tested, for example, on whether they can analyze data, solve problems using a system of equations, use scale drawings and determine simple probabilities.

Percentage of students scoring at Advanced or Proficient

|                                    | This School | District High Schools | State High Schools |
|------------------------------------|-------------|-----------------------|--------------------|
| <b>Total</b>                       | <b>2%</b>   | 2%                    | 15%                |
| <b>Black</b>                       | <b>1%</b>   | 1%                    | 2%                 |
| <b>White</b>                       | <b>7%</b>   | 7%                    | 18%                |
| <b>Hispanic</b>                    | *           | 1%                    | 8%                 |
| <b>Asian</b>                       | *           | 11%                   | 34%                |
| <b>Female</b>                      | <b>2%</b>   | 2%                    | 14%                |
| <b>Male</b>                        | <b>3%</b>   | 2%                    | 16%                |
| <b>Low Income</b>                  | <b>1%</b>   | 1%                    | 5%                 |
| <b>Not Yet English Proficient</b>  | *           | 0%                    | 6%                 |
| <b>Learning Disabled</b>           | <b>0%</b>   | 1%                    | 1%                 |
| Percentage of students taking test | 99%         | 95%                   | 98%                |

**Science**

Grade 10 students are tested, for example, on whether they can illustrate the transfer of heat energy, explain the conservation of momentum and use data to justify conclusions.

Percentage of students scoring at Advanced or Proficient

|                                    | This School | District High Schools | State High Schools |
|------------------------------------|-------------|-----------------------|--------------------|
| <b>Total</b>                       | <b>1%</b>   | 1%                    | 7%                 |
| <b>Black</b>                       | <b>0%</b>   | 0%                    | 1%                 |
| <b>White</b>                       | <b>7%</b>   | 6%                    | 9%                 |
| <b>Hispanic</b>                    | *           | 2%                    | 3%                 |
| <b>Asian</b>                       | *           | 3%                    | 11%                |
| <b>Female</b>                      | <b>0%</b>   | 0%                    | 5%                 |
| <b>Male</b>                        | <b>2%</b>   | 2%                    | 9%                 |
| <b>Low Income</b>                  | <b>0%</b>   | 1%                    | 2%                 |
| <b>Not Yet English Proficient</b>  | *           | 0%                    | 1%                 |
| <b>Learning Disabled</b>           | <b>0%</b>   | 0%                    | 1%                 |
| Percentage of students taking test | 100%        | 95%                   | 98%                |

**GRADE 11****Communication Arts**

Grade 11 students are tested, for example, on whether they can explain research ideas and identify multiple perspectives in their reading and whether they can offer specific support for their ideas and have an individual style and voice in their writing.

Percentage of students scoring at Advanced or Proficient

|                                    | This School | District High Schools | State High Schools |
|------------------------------------|-------------|-----------------------|--------------------|
| <b>Total</b>                       | <b>6%</b>   | 6%                    | 22%                |
| <b>Black</b>                       | <b>6%</b>   | 4%                    | 7%                 |
| <b>White</b>                       | <b>17%</b>  | 20%                   | 25%                |
| <b>Hispanic</b>                    | *           | 0%                    | 15%                |
| <b>Asian</b>                       | *           | 14%                   | 37%                |
| <b>Female</b>                      | <b>6%</b>   | 7%                    | 27%                |
| <b>Male</b>                        | <b>6%</b>   | 5%                    | 18%                |
| <b>Low Income</b>                  | <b>2%</b>   | 4%                    | 10%                |
| <b>Not Yet English Proficient</b>  | *           | 0%                    | 7%                 |
| <b>Learning Disabled</b>           | <b>8%</b>   | 2%                    | 2%                 |
| Percentage of students taking test | 100%        | 95%                   | 98%                |

**Assessing the MAP Results**

The MAP results for grades 10 and 11 provide one way to look at how this school and its students performed last year. Pay attention to the charts on the next page that show what percentage of students scored in each achievement level. Note whether the school is doing better or worse in different subjects. Ask the principal why this might be happening. Did this school start a new literacy or math program that could be contributing to better results? Are most teachers well prepared? Did a large percentage of students miss school frequently? Also, keep in mind that smaller schools tend to test fewer students, so the results are less statistically reliable.

In previous years, this school profile also contained results for social studies. The Kansas City, Missouri School District no longer administers that test because the state does not require it and does not fund it.

Legends used in this school performance report:

\* = Too few students were tested to be statistically significant.

N/T = No test was offered.

N/R = Data were not available or not reported.

Note: Due to rounding, percentages may not add up to 100 percent.

Student Performance (continued)

**MAP Scores, Three-Year Trends, 2002–04**

The three-year trend charts show percentages of all students who took the test. The goal is to have all students reaching Proficient or Advanced by 2014. Schools should be reducing steadily the percentage of students in the lowest categories (Step 1 and Progressing) and increasing the percentage in the Nearing Proficient, Proficient or Advanced groups. In other words, the bars at the bottom should be getting smaller each year — and the bars at the top larger. Not all schools will have students scoring in all five categories.

For definitions of N/T, N/R and \*, see the legend on page 2.

### ★ ACT Scores, Fall 2003

ACT is a college entrance exam that can be used to predict student success in college. Not all students are required to take the exam.

|   | School | District | State |
|---|--------|----------|-------|
| Percentage of graduates scoring above average | 7%     | 11%      | 33%   |
| Percentage of graduates tested                | 57%    | 48%      | 60%   |

### ACT Scores, Percentage of Students Scoring Above Average, Three-Year Trends, 2002–04

### ★ Dropout Rate, 2003–04 School Year

The dropout rate is the number of students who dropped out of grades nine through 12 last year, divided by the average number of students enrolled in grades nine through 12. Note that the dropout rate is calculated based on annual enrollment and does not reflect the percentage of students who entered ninth grade but dropped out before completing 12th grade.

|  | School | District | State |
|--|--------|----------|-------|
| Percentage of students who dropped out | 2%     | 9%       | 4%    |

### ★ Graduation Rate, Spring 2004

The graduation rate is the number of students who graduate divided by the number of graduates plus the number of students who drop out. For example, let's say 320 students graduated from a school, and 180 dropped out.  $320 \div (320 + 180) = .64$

Therefore, the graduation rate would be 64 percent.

|                                      | School | District | State |
|--------------------------------------|--------|----------|-------|
| Percentage of students who graduated | 96%    | 64%      | 85%   |

### ★ Students Pursuing College, Spring 2003

Students who learn more earn more. These data show how many graduates enrolled in two- or four-year colleges, according to their parents.

|   | School | District | State |
|---|--------|----------|-------|
| Percentage of college-enrolled students |        |          |       |
| Two-year college                        | 11%    | 10%      | 27%   |
| Four-year college                       | 25%    | 17%      | 39%   |

## TEACHERS

Research shows that an effective teacher has a huge impact on student success in school. The state requires that schools report how long teachers have been in the classroom and whether they have an advanced college degree.

One of the challenges many schools face is a shortage of qualified teachers. These schools have been forced to hire teachers lacking full credentials. These teachers receive temporary credentials.

|   | School | District | State |
|---|--------|----------|-------|
| Average years of experience                             | 16     | 15       | 13    |
| Percentage of teachers with a master's degree or higher | 47%    | 37%      | 48%   |
| Percentage of certified teachers                        | 89%    | 90%      | 97%   |
| Percentage of teachers with temporary credentials       | 6%     | 6%       | 2%    |
| Percentage of teachers with no credentials              | 6%     | 4%       | 2%    |

## EXPENDITURES, 2003–04

School-level spending data are not available. Spending can vary from school to school, based on the number of special education, limited-English proficient and high-poverty students ... as well as the seniority of the teachers.

|                                 | School   | District | State    |
|---------------------------------|----------|----------|----------|
| Average expenditure per student | N/R      | \$9,137  | \$7,394  |
| Average teacher salary          | \$44,919 | \$42,071 | \$39,827 |
| Average administrator salary    | \$69,070 | \$71,064 | \$71,470 |

## SCHOOL ENVIRONMENT

### Safety and Discipline

Students learn best when they feel safe in school. Suspensions and expulsions can vary from school to school, based on how individual principals and teachers handle discipline. At some schools, security staff patrol hallways daily. Students who ignore safety codes are required to take anger-management classes and are trained in conflict resolution. More severe cases result in suspension or expulsion.

| NUMBER OF EXPULSIONS PER 100 STUDENTS |        |          |       |
|---------------------------------------|--------|----------|-------|
|                                       | School | District | State |
| 2003–04                               | 0      | 0        | 0     |

| NUMBER OF SUSPENSIONS PER 100 STUDENTS |        |          |       |
|--|--------|----------|-------|
|  | School | District | State |
| 2003–04                                | 4      | 8        | 2     |

Students are suspended for a variety of reasons, including: assault, threatening other students and school staff, pulling the fire alarm.

### Average Class Size

The smaller the class size, the more one-on-one attention students receive from teachers. Research shows that individual attention can improve student learning.

| STUDENT-TEACHER RATIOS* |        |          |       |
|-------------------------|--------|----------|-------|
|                         | School | District | State |
| 2003–04                 | 20:1   | 17:1     | 19:1  |
| 2002–03                 | 18:1   | 17:1     | 18:1  |
| 2001–02                 | 17:1   | 17:1     | 18:1  |

\*Includes only classroom teachers.

### Attendance

Students who come to school every day have a better chance to learn.

| AVERAGE DAILY ATTENDANCE |        |          |       |
|--------------------------|--------|----------|-------|
|                          | School | District | State |
| 2003–04                  | 84%    | 91%      | 94%   |

## STUDENTS

Total Enrollment: 729

### Gender

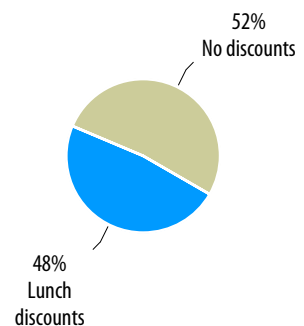

### Ethnicity

### Family Income

Students from low-income households are eligible to receive free and reduced-price lunches.

## IS YOUR SCHOOL MAKING “ADEQUATE YEARLY PROGRESS”?

All schools in Missouri must show that they have made adequate yearly progress (AYP) in communication arts and math, according to federal rules passed in January 2002. The school as a whole must meet these goals and so must each group of students: white, black, Hispanic, Asian, low income, special education and students learning to speak English. If even one group of students doesn't meet the communication arts or math target, the school does not make AYP. Also, at least 95 percent of students in each group must be tested.

If a school receives Title I funds from the federal government and doesn't make AYP two years in a row, it must give students a chance to transfer to another school. If a school doesn't make AYP three years in a row, it must provide free tutoring services to students. The rules are complicated. We recommend talking to the principal to learn more.

### AYP AT A GLANCE

|  | Yes / No |
|--|----------|
| Did your school make AYP in communication arts?                                    | No       |
| Did your school make AYP in math?  | No       |
| Did your school make AYP by testing at least 95 percent of students in each group? | N/R      |
| Does your school need to offer students a chance to transfer?                      | Yes      |
| Does your school need to offer free tutoring service?                              | Yes      |

### CELEBRATIONS

Paseo is one of two district high schools designated A+ by the Missouri Department of Elementary and Secondary Education. Students who meet specific academic criteria may qualify for two years of college free of charge. Paseo students participate in numerous arts competitions and events to qualify for scholarship money, and last year, our graduates received nearly \$2 million in scholarship funds. To request an arts performance calendar, please call Ms. Moore at 418-2275.

## USING THIS REPORT

This report shows where this school is succeeding and where there is room for improvement. Please use this information to ask educators how the school plans to improve and how you can help. Think about bringing together other parents to talk about what's inside this report. Ask teachers to get involved.

No single report, however, can tell the whole story of a school's educational program or the people who work and learn there. Find out firsthand by visiting the school and taking an active role in student learning. Studies show that when parents are involved, students do better in school.
